

Official Program Outline

HERZING[®]
— UNIVERSITY —

BACHELOR OF SCIENCE IN NURSING – ACCELERATED OPTION

PROGRAM DESCRIPTION

The Accelerated Bachelor of Science in Nursing program is designed for those holding bachelor's or master's degrees in other fields who want to become a bachelor-prepared registered nursing (BSN). The program is designed to facilitate a career change to prepare the generalist nurse as a member of the healthcare team in a variety of settings. The program focuses on patient-centered care, teamwork, collaboration, evidence-based practice, safety, quality improvement, and informatics. The program emphasizes the use of innovative technologies and preparation for assuming leadership roles.

PROGRAM OUTCOMES

Upon completion of their program, the student should be able to:

1. Prioritize patient-centered care using clinical judgment and the nursing process.
2. Collaborate with patients, families and team members to provide safe and culturally competent care.
3. Integrate evidence-based practice within diverse clinical settings to deliver optimal care.
4. Minimize risk of harm to patients and providers through both systems effectiveness and individual performance.
5. Use informational technology to communicate, mitigate error, support decision making, and manage patient care.
6. Evaluate quality improvement processes to enhance patient outcomes.
7. Integrate professionalism and advanced leadership skills within the interdisciplinary healthcare environment.
8. Analyze national and global policies, legislative concepts, and economics to address population outcomes.

PROGRAM CONTENT

A minimum of 120.00 semester credit hours is required for graduation. Students will receive 35.00 semester credit hours of block transfer credit for coursework completed in their previous degree.

THIRD PARTY TESTING

Assessment and remediation are critical components of nursing education. Students in the nursing program may be required to take third-party, standardized, proctored exams in an electronic format throughout the curriculum. Students may be required to go to a third-party testing site to complete exams. These standardized tests are valid and reliable predictors of success on the NCLEX examination and provide valuable feedback concerning student strengths and weaknesses. Student learning outcome data identifies content areas that require remediation, allowing faculty to personalize student support and intervention. Courses that utilize third-party exams will incorporate the points earned on the test as a percentage of the final grade earned for the course as specified in the course syllabus.

BSN Nursing Curriculum Progression Milestone Exams and Policy

The purpose of the nursing progression milestone exams and policy is to ensure preparation of the student for the NCLEX exam. This process validates knowledge acquisition and application through standardized, third-party exams. Students will be required to complete three progression milestone exams at key points in the curriculum as well as an exit exam during the final semester. Each progression milestone exam is a comprehensive assessment of all content covered in the program up to exam administration.

Progression Milestone exam #1 is administered after or while completing NSG 121, NSG 122, and NSG 124.

Progression Milestone exam #2 is administered after or while completing NSG 123, NSG 221, NSG 222, and NSG 223.

Progression Milestone exam #3 is a Pharmacology exam and will be administered during the term prior to NSG 426.

If the *benchmark score on the first formal attempt is not attained, a plan for remediation will be developed in collaboration with the faculty/program chair/NCLEX coach and a second attempt will be provided.

If the student is below the *benchmark score on the second attempt, the student cannot enroll in the next semester clinical courses. The student will be enrolled in any outstanding general education courses as well as a nursing remediation course to provide remediation of

content. At the end of the 8-week remediation course, students will be provided a final attempt to demonstrate competency.

If the student is unsuccessful on the final attempt to demonstrate competency, the student will be dismissed from the ASN/AASN or BSN program and will not be eligible to re-enter into either program. A student who is dismissed may appeal to transfer into the Practical Nursing (PN) program or any other non-nursing program offered at Herzing University. Note: the PN program is not offered at all locations.

Students who are successful on the final retake exam will be rescheduled by Registrar Services.

Students who are unsuccessful on the final retake exam will be dismissed from the nursing program and provided advisement on alternative program pathways.

RN Exit Exam

The exit exam will cover content from all nursing courses, is reflective of NCLEX readiness and is administered in the final semester. Students will take practice assessments during the NSG426 course, in conjunction with individualized remediation and completion of assignments focused on NCLEX readiness. This is followed by a final exit exam.

Students who are unable to reach the *benchmark score on the exit exam will receive an Incomplete (I) grade for their NSG 426 course and will be required to successfully reach this benchmark on the final exit exam by the second week of the subsequent semester to resolve the (I) grade.

If they are unable to resolve the (I) grade by the second week of the subsequent semester, the grade will convert to an (F) grade and the student will be placed on “Approved Break” for the remainder of the semester, during which time they must remain actively engaged in formal remediation. This will cause a delay in program completion and graduation. Students should discuss the implications of being on “Approved Break” with their financial aid advisor.

**Threshold benchmark scores required to pass the milestone or exit exams are based upon national student performance data and may be changed at any time by the university.*

DOSAGE CALCULATION EXAMS

Dosage calculation exams are required at multiple points throughout the program. A student who is unable to pass any of the exams will not be allowed to progress without completion of remediation and demonstration of competency as evidenced by reaching the required score on a final dosage calculation exam attempt.

REQUIRED COURSES IN NURSING

All courses, 54.00 semester credit hours, are required.

Course Number	Course Name	Prerequisites/Corequisites	Semester Credit Hours
NSG 120	Nursing Pathophysiology	SC 166, SC 254	3.00
NSG 121	Health Assessment	SC 166, SC 254	3.00
NSG 122	Nursing Fundamental Concepts	SC 166, SC 254	5.00
NSG 123	Medical-Surgical Nursing I	NSG 120, NSG 121, NSG 122, NSG 124	6.00
NSG 124	Pharmacology	SC 166, SC 254	3.00
NSG 221	Mental Health Nursing	NSG 120, NSG, 121, NSG 122, NSG 124	4.00
NSG 222	Family Nursing	NSG 123 or NSG 125	6.00
NSG 223	Medical-Surgical Nursing II	NSG 123, NSG 221	6.00
NSG 233	Medical-Surgical Nursing III	NSG 223	5.00

Course Number	Course Name	Prerequisites/Corequisites	Semester Credit Hours
NSG 323	Community and Public Health Nursing	None	5.00
NSG 425	BSN Practicum	NSG 233 / NSG 426	5.00
NSG 426	Review of Integrated Nursing Concepts	NSG 233 / NSG 425	3.00

REQUIRED DUAL CREDIT GRADUATE COURSES

All courses, 12.00 semester credit hours, are required.

Undergraduate students in the Accelerated BSN program will be assigned to take 12.00 semester credit hours of graduate courses. Students may request to take the corresponding undergraduate course if desired. See Academic Information for full requirements under title Earning Graduate Credits as an Undergraduate Student.

Course Number	Course Name	Prerequisites/Corequisites	Semester Credit Hours
HA 610	Health and Policy Management <i>(Transferrable to MSN Program, except for MSNWHNP)</i>	None	3.00
NU 602	Epidemiology, Research, and Theory <i>(Transferrable to BSN to DNP Program Only)</i>	NU 601	3.00
NU 725	Technology and Nursing Informatics and Advanced Practice <i>(Transferrable to MSN & DNP Programs)</i>	None	3.00
NU 730	Systems-Based Practice <i>(Transferrable to MSN & DNP Programs)</i>	None	3.00

TRANSFER CREDITS FOR GENERAL EDUCATION AND OPEN ELECTIVES

Students enrolling in the Accelerated BSN program will receive block transfer credit for coursework completed in their previous degree. A minimum of 35.00 semester credit hours of general education and open elective credits will be awarded from a previously earned bachelor's degree. Additional transfer credits may be considered for the programmatic support and non-clinical nursing courses on a course-by-course basis.

ADDITIONAL REQUIRED COURSES IN GENERAL EDUCATION

Students enrolled in the Accelerated BSN program must complete a minimum of 19.00 semester credit hours in general education distributed among the following disciplines. The Herzing University General Education offerings are listed below.

16.00 Semester Credit Hours in Science

- SC 150 Principles of Nutrition, Semester Credit Hours: 2.00
- SC 154 Anatomy and Physiology I for Nurses, Semester Credit Hours: 4.00
- SC 166 Microbiology, Semester Credit Hours: 3.00
- SC 186 Chemistry, Semester Credit Hours: 3.00
- SC 254 Anatomy and Physiology II for Nurses, Semester Credit Hours: 4.00

3.00 Semester Credit Hours in Mathematics

- MA 320 Statistics, Semester Credit Hours: 3.00

Note: Transfer students may transfer courses that are within 1.00 semester credit hour of the courses listed above to meet these discipline requirements. Science courses being transferred in from other institutions must meet the nursing program science requirements.

SPECIAL GENERAL EDUCATION GRADING REQUIREMENTS FOR NURSING SUPPORT COURSES

The following science courses must be completed with a grade of "B" (80%) or better. Only two attempts are permitted for each course and a student who fails to successfully complete in the maximum attempts is subject to dismissal from the nursing program.

- SC 154 Anatomy and Physiology I for Nurses, Semester Credit Hours: 4.00
- SC 254 Anatomy and Physiology II for Nurses, Semester Credit Hours: 4.00

The following general education courses must be completed with a grade of “C” (70%) or better for a student to continue in the nursing program.

- SC 150 Principles of Nutrition, Semester Credit Hours: 2.00
- SC 166 Microbiology, Semester Credit Hours: 3.00
- SC 186 Chemistry, Semester Credit Hours: 3.00
- MA 320 Statistics, Semester Credit Hours: 3.00

A student who is dropped from the nursing program for failing to achieve the minimum grade specified in the courses listed above, but who otherwise meets the academic standards of the University may transfer to another Herzing degree program and/or may appeal to reapply to the BSN nursing program in a future semester.

Distribution of Contact Hours by Course					
Course	Lecture Hours	Lab Hours	Clinical Hours	Total Contact Hours	Credits
Block Transfer Credit	525.00			525.00	35.00
HA 610	45.00			45.00	3.00
MA 320	45.00			45.00	3.00
NSG 120	45.00			45.00	3.00
NSG 121	30.00	30.00		60.00	3.00
